### Performance Steps

1. Record key information from the initial Religious Support (RS) Running Estimate, including but not limited to items listed below:
  - a. Identify facts which will affect the delivery of RS.
  - b. Identify assumptions that must be made in order to (IOT) plan for delivery of RS where facts are not yet known.
  - c. Identify constraints and limitations that will affect the delivery of RS.
  - d. List requests for information (RFIs) you have for other staff sections in your battalion, brigade and higher HQ UMT or chaplain section.
  - e. Develop solutions to anticipated problems and unanticipated problems as they are identified.
2. Collect and analyze information from all available sources, including but not limited to: standing operating procedures (SOPs), memorandums of instruction (MOIs), past experience, Running Estimates of other battalion staff sections, and information from higher headquarters including their Religious Support Plan (RSP).
3. Participate in coordination with (ICW) with the chaplain in all MDMP planning meetings, maintaining open and frequent communication by talking with the S3 operations section along with NCOICs of all staff sections gathering information pertinent to the RS mission and informing them of information from the RS planning process.
4. Ensure that either you or your supervisory chaplain participates in all running estimate briefings by attending and contributing to them, ensuring full integration with all other staff sections.
  - a. Conduct and participate in key rehearsals.
  - b. Coordinate for support needed for the delivery of RS through all phases of the operation, including but not limited to transportation and additional RS assets.
5. Assemble the information needed to complete the RS attachment to the OPORD IAW FM 6-0, Appendix C, Figure C-3 and ATP 1-05.01, Appendix B. The needed categories of information relate to the RS mission and include but are not limited to: situation, terrain, weather, enemy forces, friendly forces, civil considerations, scheme of support, and priorities of sustainment for RS.

(Asterisks indicates a leader performance step.)

**Evaluation Guidance:** Soldier is evaluated orally or in written form based on their ability to perform the performance measures listed. Soldiers who miss any performance measures should be retrained and reevaluated.

**Evaluation Preparation:** Set-up: Tell Soldier to brief in written form information prepared as input to the RS attachment to the OPORD.

**Environment:** Environmental protection is not just the law but the right thing to do. It is a continual process and starts with deliberate planning. Always be alert to ways to protect our environment during training and missions. In doing so, you will contribute to the sustainment of our training resources while protecting people and the environment from harmful effects. Refer to FM 3-34.5 Environmental Considerations and GTA 05-08-002 ENVIRONMENTAL-RELATED RISK ASSESSMENT. Environmental protection is a continual process. Always be alert to ways to protect our environment and reduce waste.

**Safety:** In a training environment, leaders must perform a risk assessment in accordance with ATP 5-19, Risk Management. Leaders will complete the current Deliberate Risk Assessment Worksheet in accordance with the TRADOC Safety Officer during the planning and completion of each task and sub-task by assessing mission, enemy, terrain and weather, troops and support available-time available and civil considerations, (METT-TC). Note: During MOPP training, leaders must ensure personnel are monitored for potential heat injury. Local policies and procedures must be followed during times of increased heat category in order to avoid heat related injury. Consider the MOPP work/rest cycles and water replacement guidelines IAW FM 3-11.4, Multiservice Tactics, Techniques, and Procedures for Nuclear, Biological, and Chemical (NBC) Protection, FM 3-11.5, Multiservice Tactics, Techniques, and Procedures for Chemical, Biological, Radiological, and Nuclear Decontamination. Everyone is responsible for safety. A thorough risk assessment must be completed prior to every mission or operation.
